If we consider that four seasons of the greening of grass shall have passed since first we were startled by these new college environs, we must arrive at the conclusion that for most of us, the academic idyll has terminated. *sine die*.

If we consider that eight periods of academic interrogation have passed since the first encounter with our socratic guardians, we must determine that the interrogation of achievement in the real world is about to begin, for the university — and SMU in particular — has been far and away from the real world.

Now that the corporate life beckons to some and demands the obeisance of all, can joe and jane college grad back off in terror for a moment, and consider where they have been?

The upheavals and uncertainties of the undergraduate years of '67, '68, '69, '70 and '71 cannot in truth be underestimated. Like it or not, for better or worse, everyone was affected by the rising tide of controversy which swept inexorably across a nation and its universities.

The systems which fostered the aims of higher education for some by offering financial inducements, was the same system that presided by default at the deaths of college students at Kent State and Jackson State. The system which at face value supported the quest for individuality and creativity in the universities, was the same system which preserved by default the regimes of egocentric men who neither supported nor advanced either activity.

But the symptoms are not to be confused with the malady itself, and the willingness of men and institutions to deal with even the symptoms was and is in question. Up, in the midst of these dilemmas, advancing rapidly, came Southeastern Massachusetts University — and a concomitant tragedy.

A tragedy in that perhaps the characters — the university, its students, and the community it was designed to serve — never, ever met.

The undergraduate years of the class of 1971 were also the years of sudden departure of luminaries from the American scene — Dr. Martin Luther King and Sen. Robert F. Kennedy were dispatched to their deaths by fanatics who ultimately did harm to their own political causes, but not before doing perhaps irreparable harm to the vitality and stability of the American nation.

Activism, even that of a non-violent nature, quickly led to repression, the mood of the nation changed, and the lifestyles of opportunists underwent similar changes. Controversial figures, viewed in some quarters of the university as being substitutes for the lost luminaries, were also dispatched, although in a more subtle manner.

Days and weeks of seemingly futile protest did not prevail, and the underlying issue was not actually resolved. The growth of what some felt to be concrete intransigence was accompanied by the growth of concrete structures as a new city of academia rose in the woods of North Dartmouth, Massachusetts.

In one respect at least, it was to have one of the attributes of the traditional university, that of the diversity of attitudes in regard to it. Some felt it characterized by pervasive despair, others attained an inscrutable neutralism in regarding it, still others were content to wallow happily in an unorganized and chaotic *status quo*.

It has been alleged that all new institutions suffer from “growing pains,” but a dispassionate observer could not help but speculate on whether those in power at SMU were really at great pains to grow.

The *cause celebre* of the University and indeed that of the national and the world in the experience of the class of 1971 was undoubtedly THE WAR. Opposition to the conflict was widespread and diffuse, and generally articulate, but a gratuitous gesture was generally the response to organized protest, and the conflict dragged on.

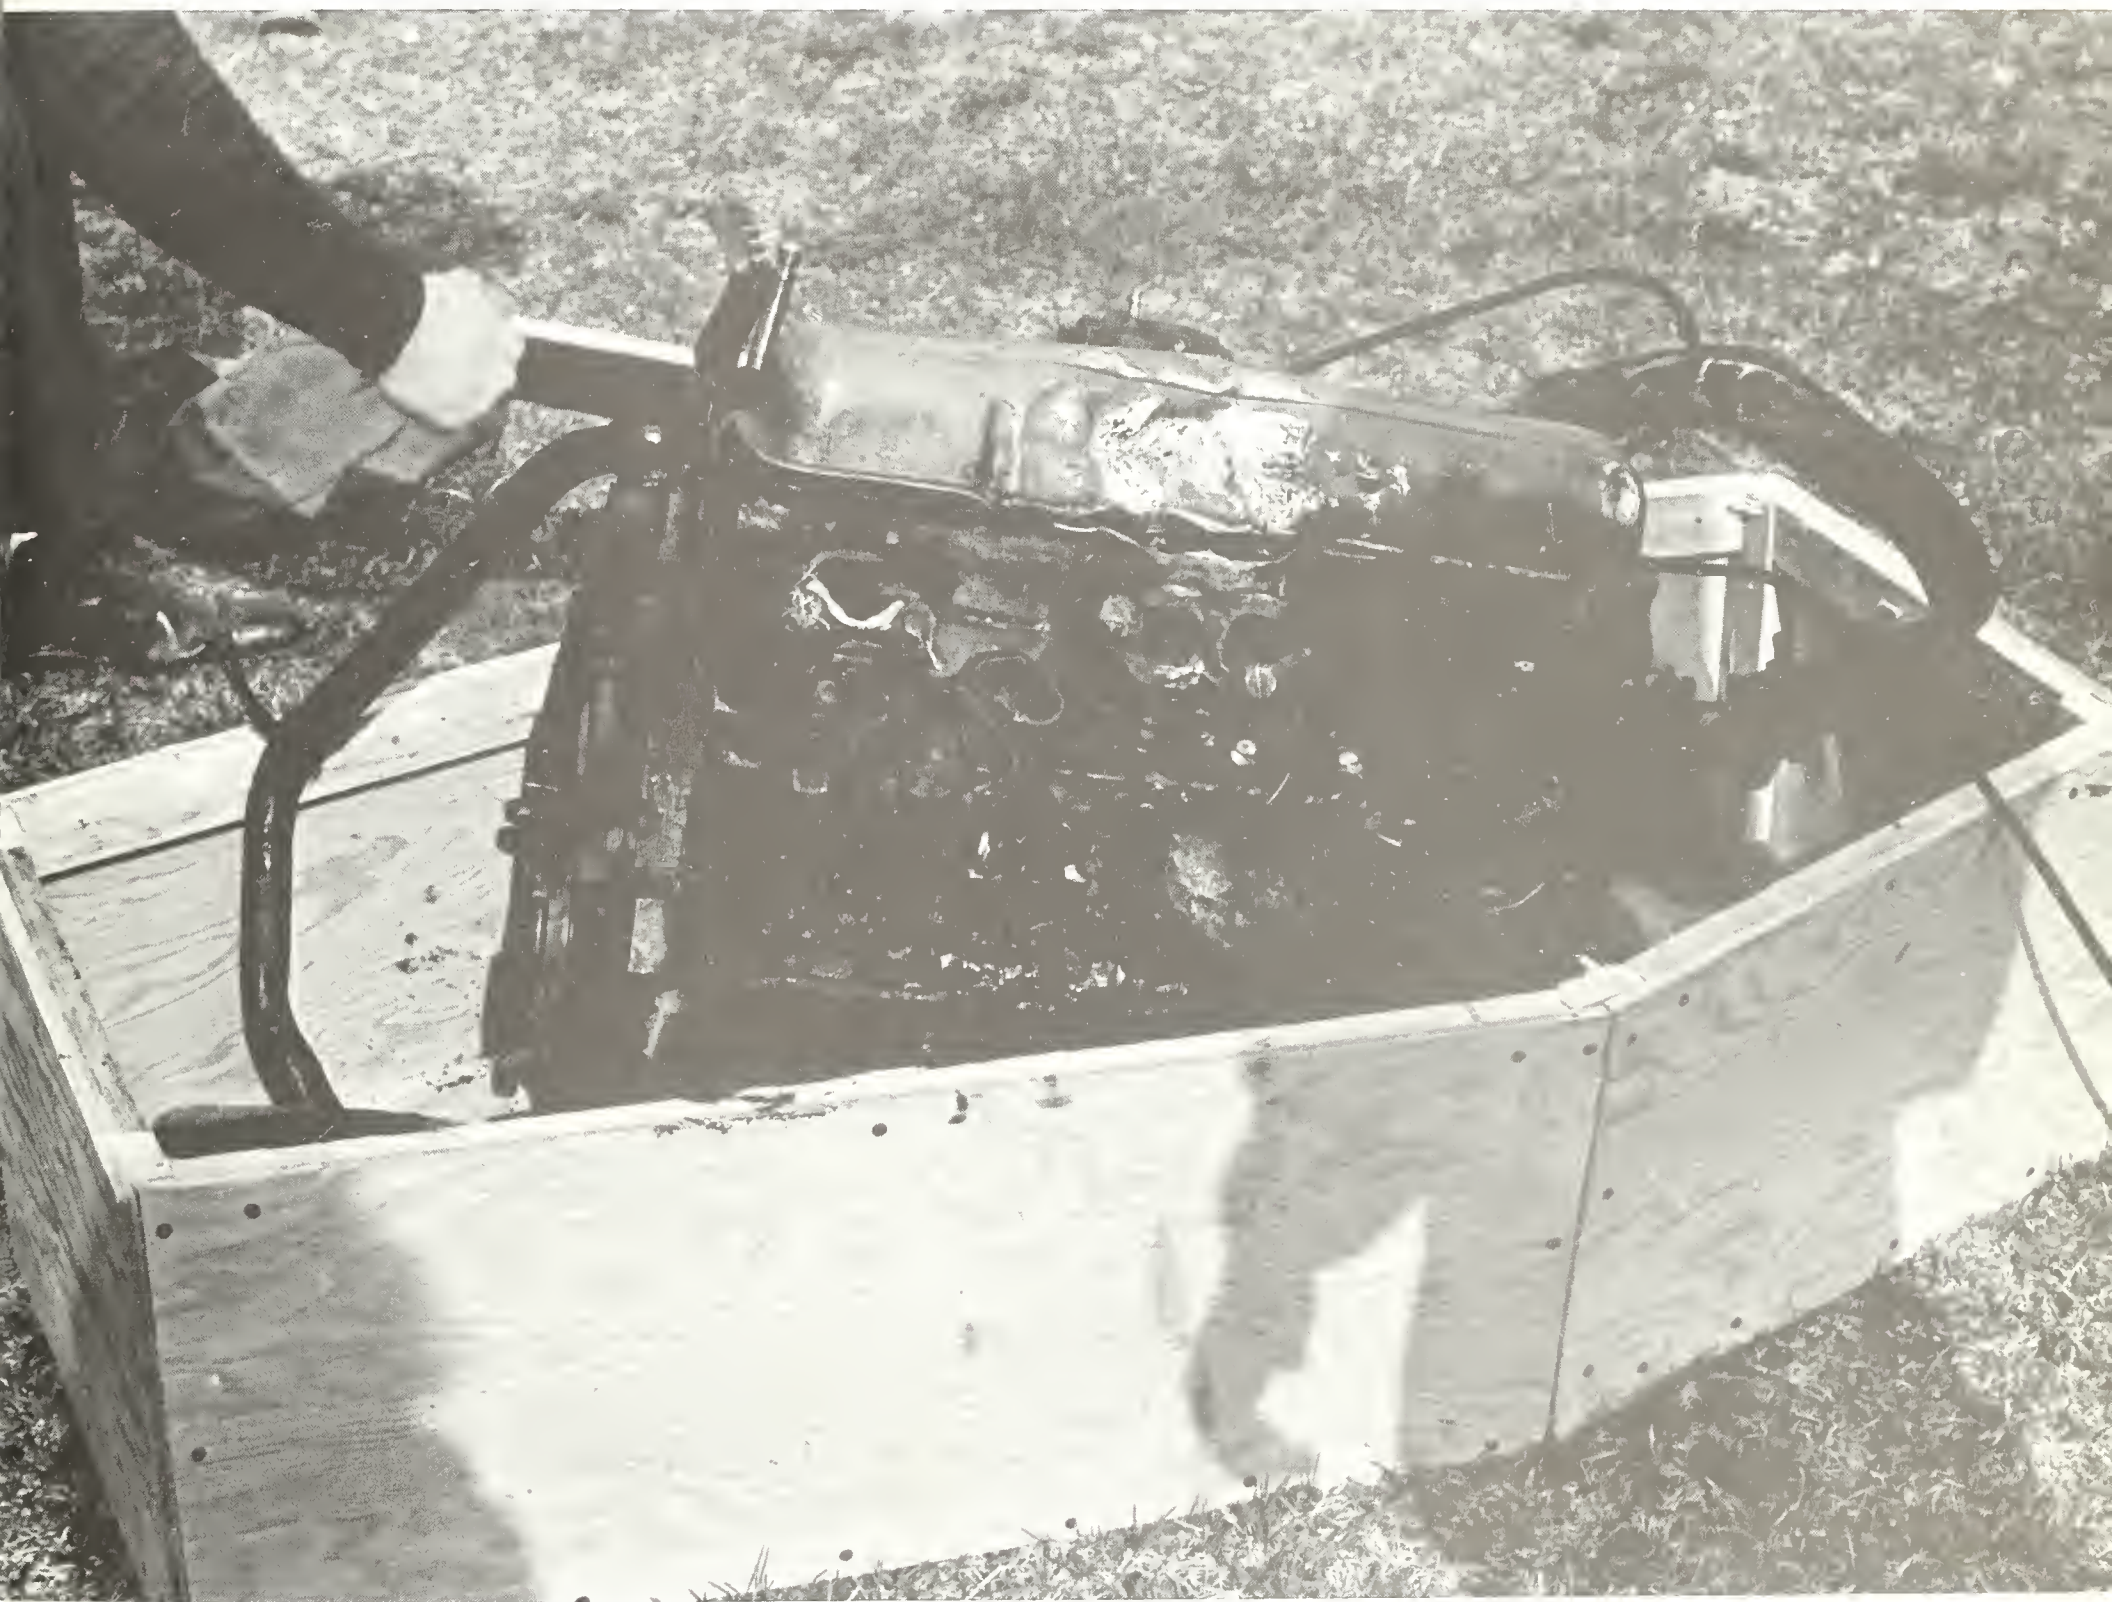

Teach-ins and denunciations of government policy were rife, and “the children’s crusade” of Eugene McCarthy seemed to inject new life into a moribund system, but the events in Chicago in August of 1968 seemed at the time to have sounded the death knell for the sick American Patient.

Many graduates will remember the SMU day of protest against the war, and the night-time candlelight vigil that followed — others perhaps will remember their rejection of the protest and of the alleged lack of patriotism that accompanied it, these memories will become part of one's recollections of SMU long after the conflict in Southeast Asia is over — but who will remember young men lying dead on a battlefield?

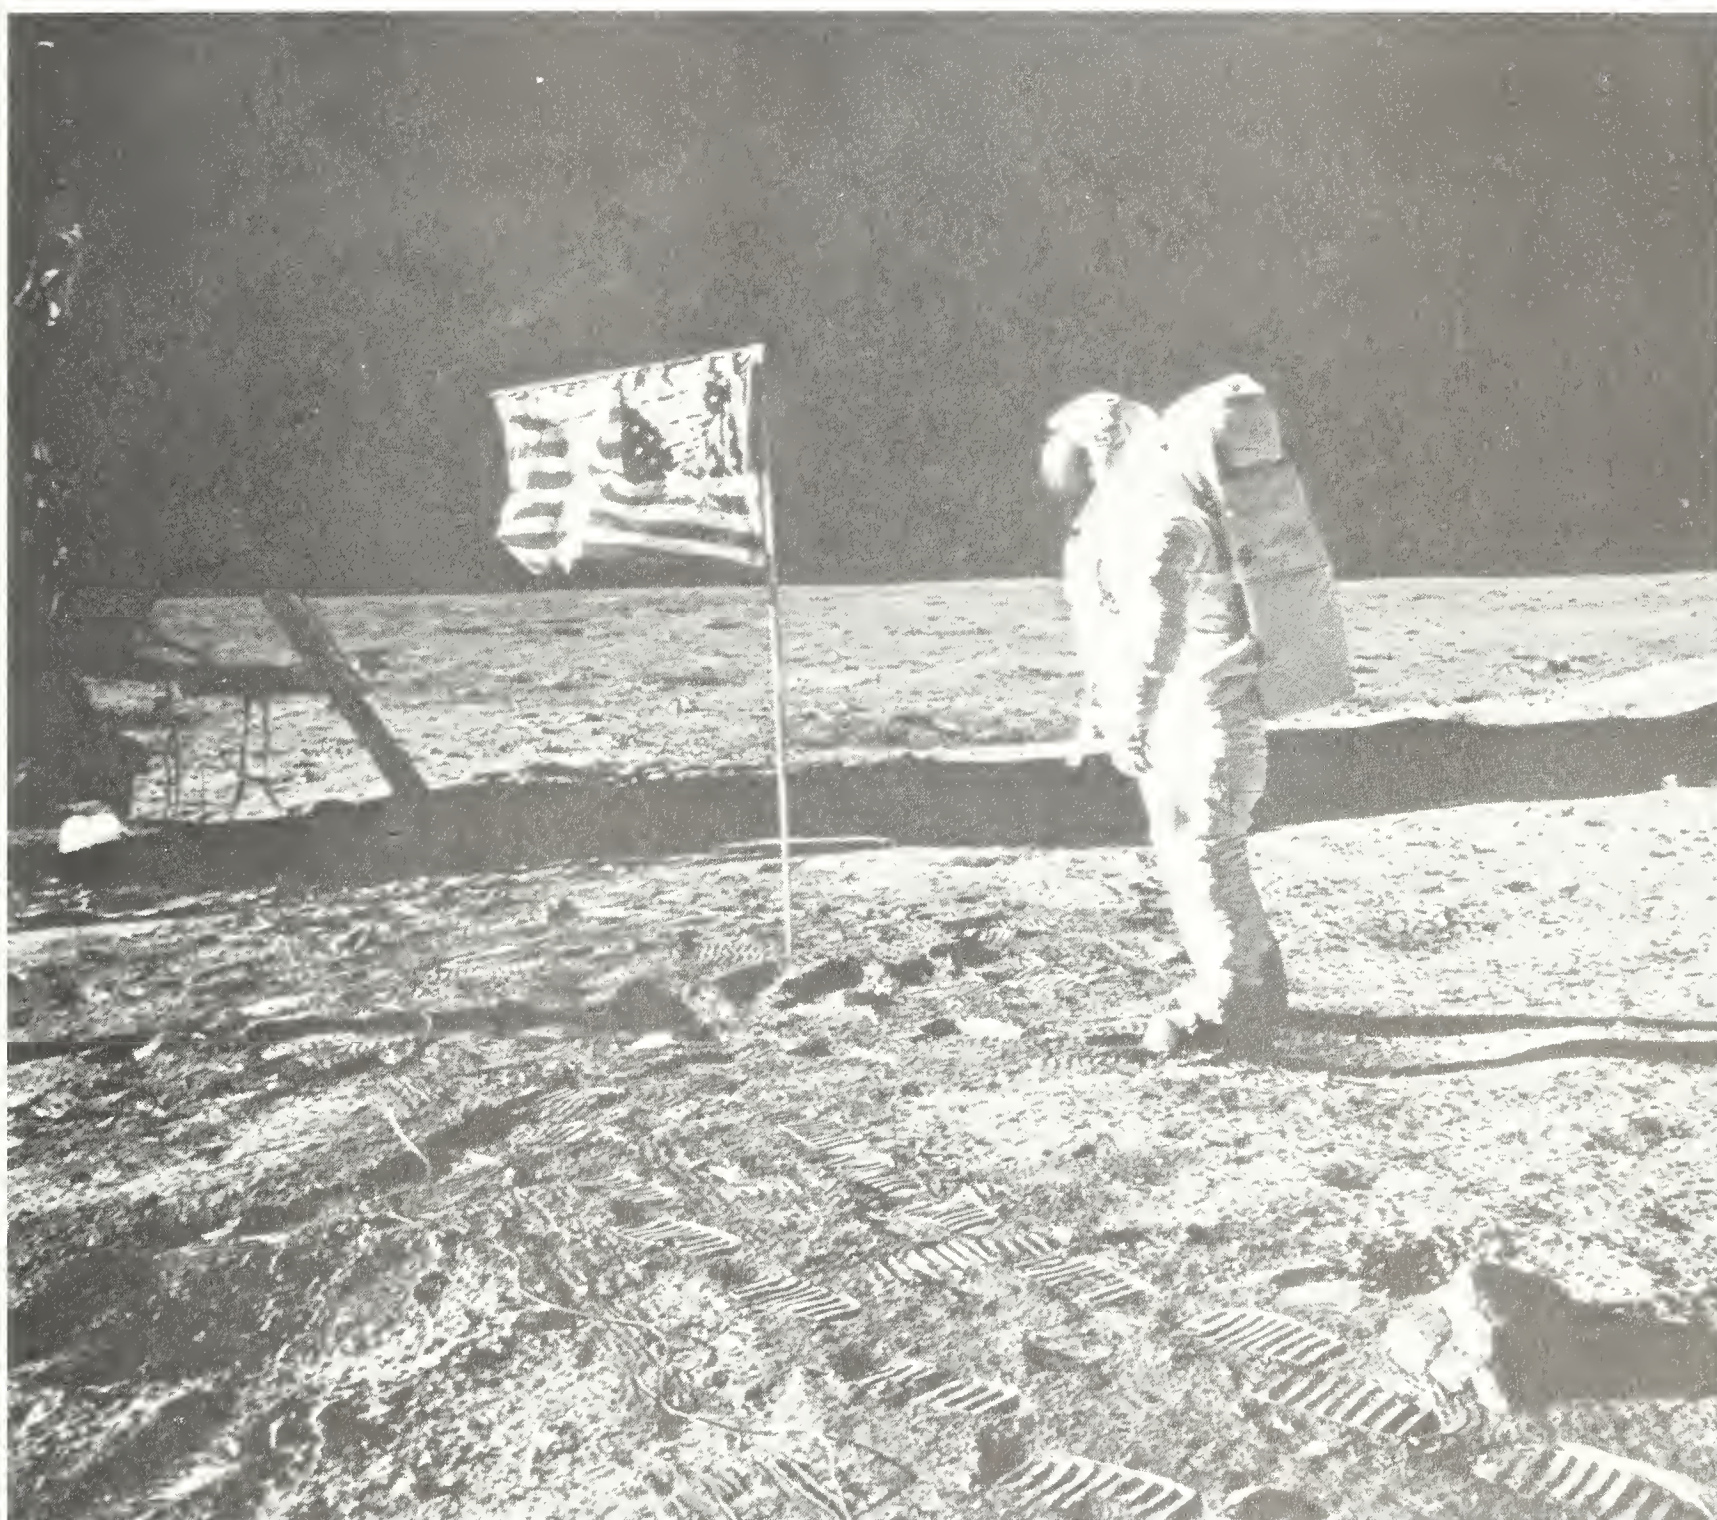

“. . . The earth . . .” we have been told . . . “abideth forever,” but in the waning years of the last decade, and early in the Seventies, it became apparent that the latter biblical verity was in jeopardy. That seemingly unperishable contribution of nature to man was endangered, and the ensuing ecological vanguard or bandwagon led students across the nation to “a celebration in praise of life,” on Earth Day, April 22, 1970.

Few will remember the several rejoiners of various groups to “become involved” in the struggle to reclaim spaceship earth, but infinitely fewer will forget — or escape — polluted air and rivers and the usurpation of America’s landscape.

Man's glorious destiny in the skies, to some reflected in what might be the event of the decade, the landing on the moon — seemed marred by our ignominious accomplishments in laying desolate vast reaches of the legacy of generations. But APOLLO on the moon captured the imaginations of men from North Dartmouth to New Delhi, thankfully obscuring for a time, the import and immensity of problems at home.

The chaos of our post-pubescent experiences served to make us always alert to new experiences of pleasure — one needed relief in addition to the acquisition of a social conscience. And in addition to the needed relief, one acquired a new feeling for the human condition, from Woodstock to the Woods of Dartmouth.

Our home born rock festival needs no further pacans; even if the Woodstock nation did not become the children of the Woods of Dartmouth, we were very much together and shall be having festival memories for a very long time.

But even prior to the upsurge in the discarding of the old ways, change was coming. The unlamented death of the button down shirt and penny loafers was indicative of change not only in modes of dress, but truly of attitudes.

Change was manifested in many revolutions, some violent, some peaceful and one that was green. But the resistance to change too, had impact on our lives, and many saw the face of fear and repression across America — and it was not good.

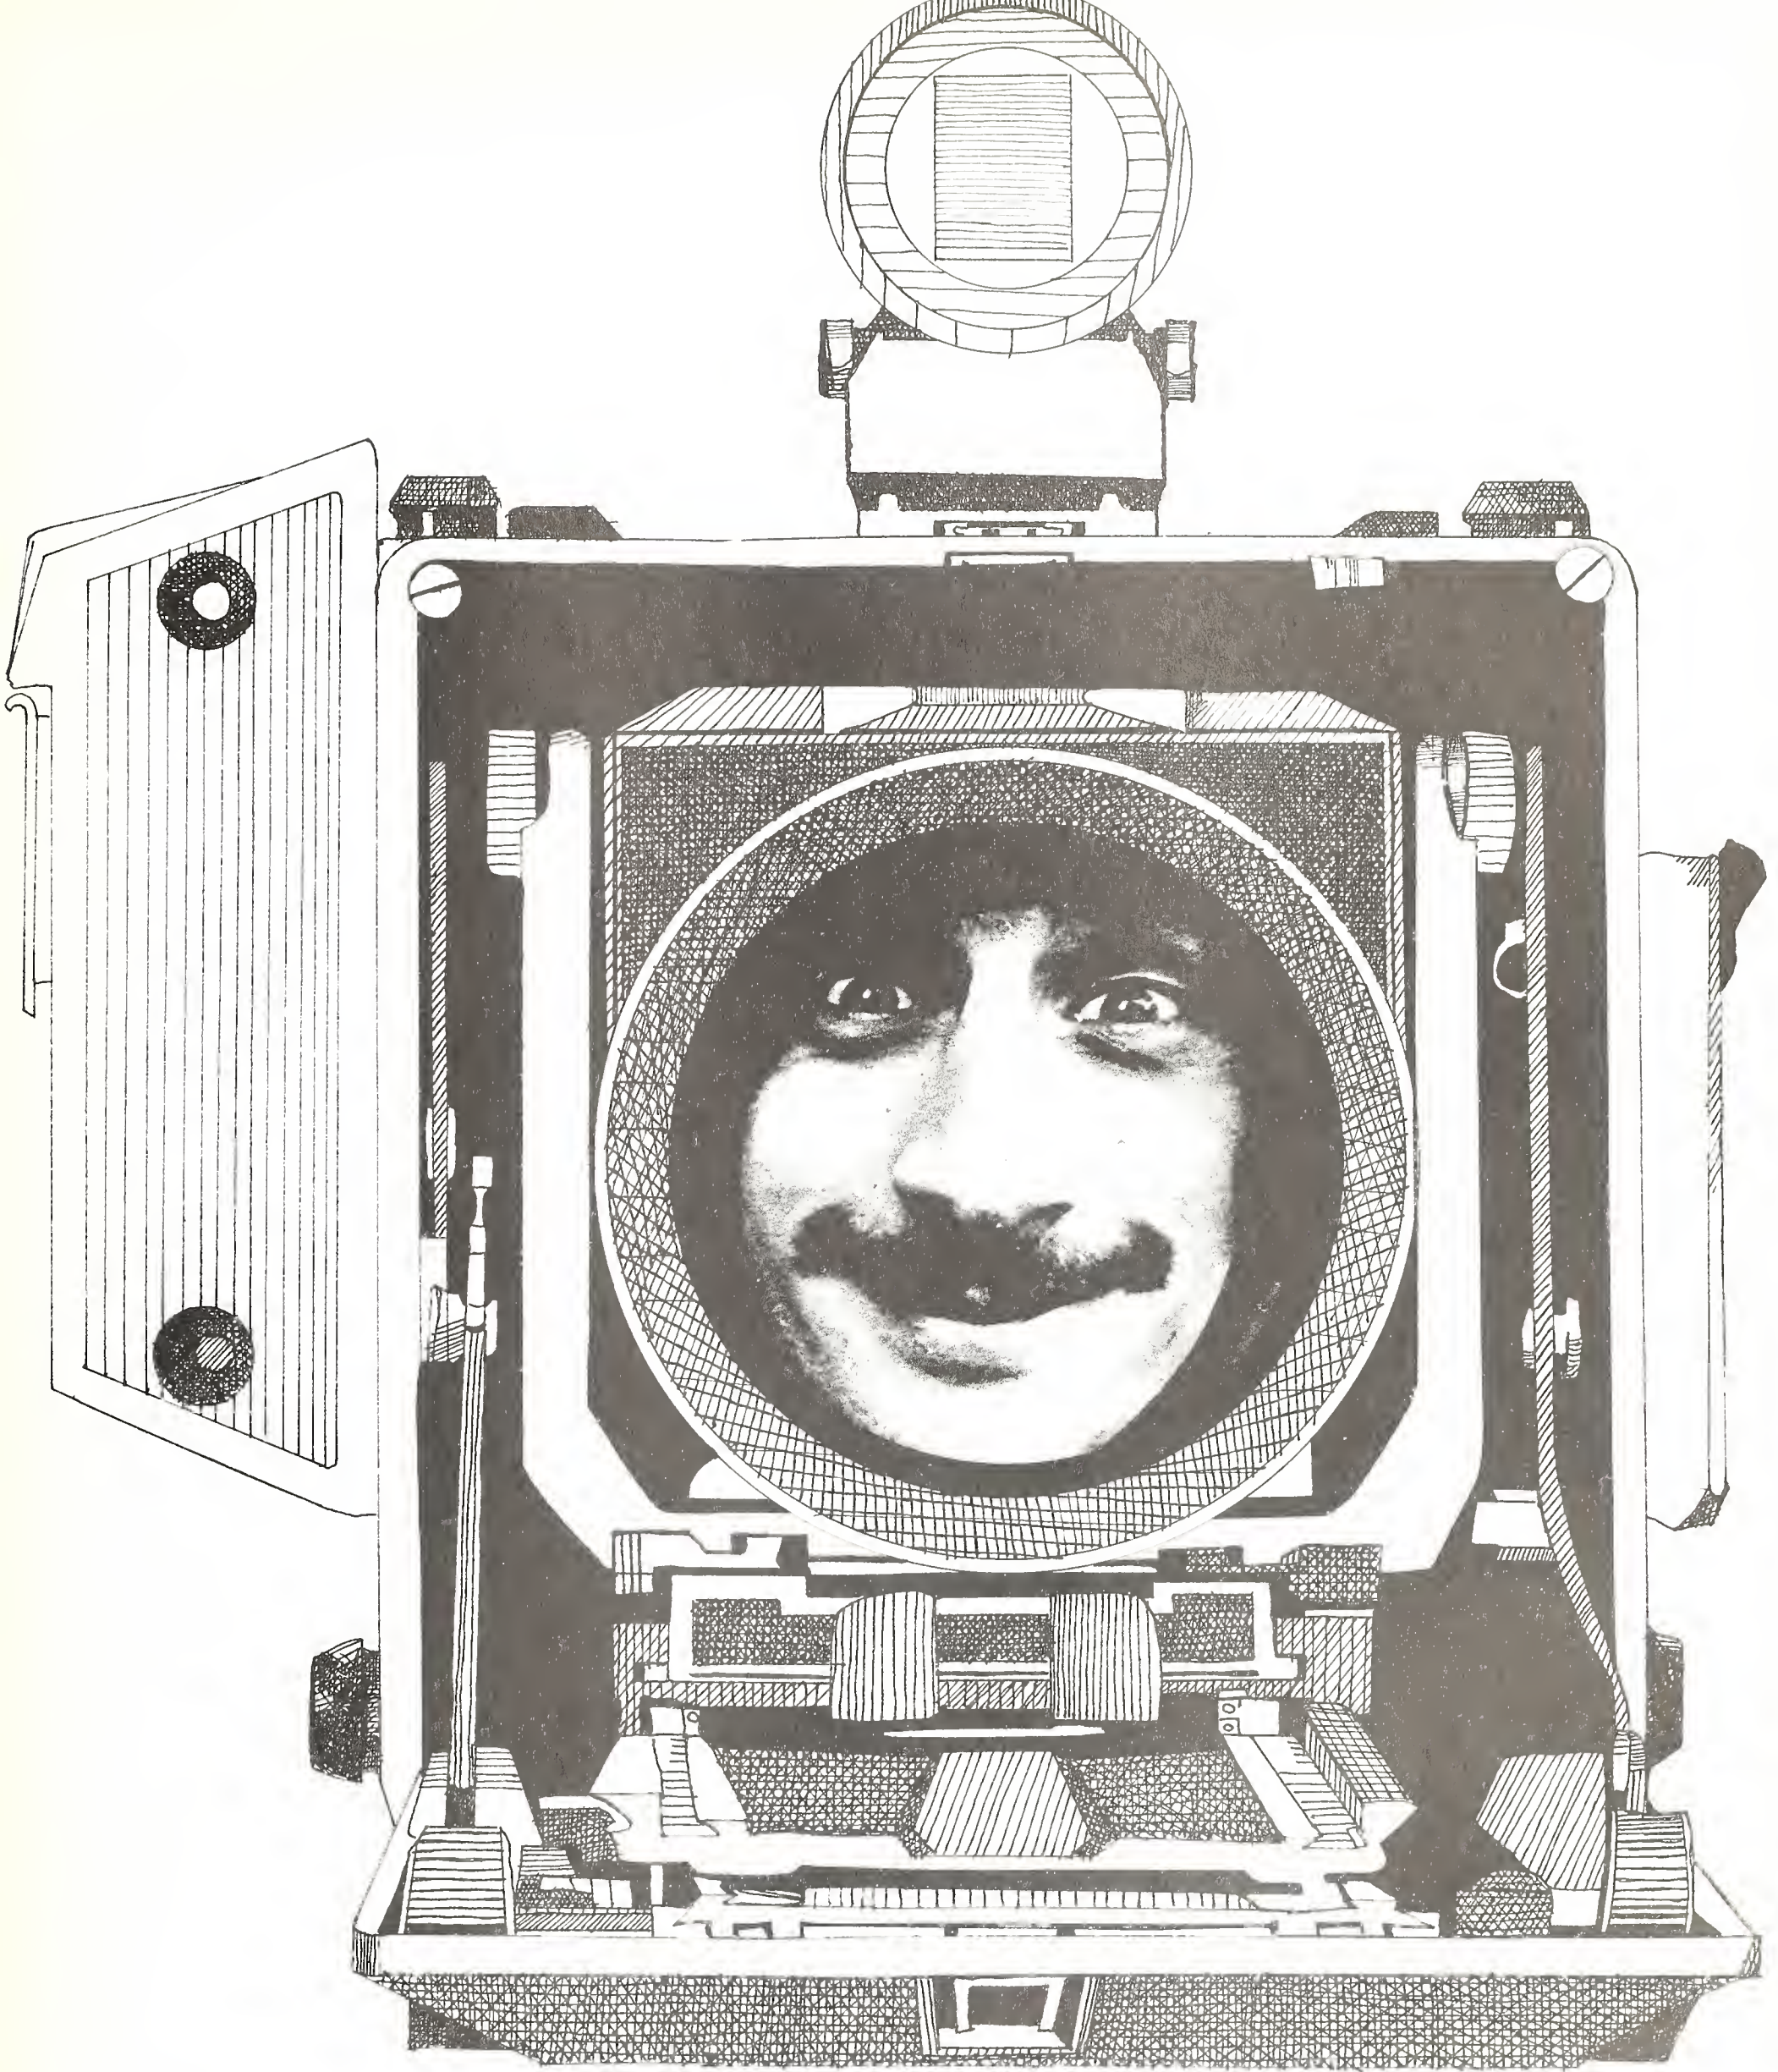

Great social change, accompanied by the changes in our own lives as individuals, leads us now to the future and the kind of world which we shall seek for ourselves. Here Ibsen held . . . "That man is in the right who is most closely in league with the future," and Leon Gambetta added that, "No one can forbid us the future," and that is well enough.

But where are the days when we were children?

1971 SMU SCRIMSHAW YEARBOOK DEDICATION

Some men build institutions, and take pride in the tangible effects of their efforts. Some men build lives never too sure as to when and in whom their effect began, but certain that once begun their efforts will have born the fruits of human betterment in ways unknown and in persons unseen. Such a man is the man to whom this yearbook is dedicated — Dr. Robert Lyden McCabe.

To two generations of SMU students, Robert McCabe has been the consummate teacher of Mathematics — and much more. A man of brilliant intellect, he has brought to his role a thorough knowledge of his subject, a love for its logic and a desire that those to whom he teaches it would acquire both. His superb teaching skills have made it possible for him to convey to his students the contagious joy of pursuing truth and the thrill of discovery. Though tough and demanding in his standards of academic excellence, he treats his students with the humility of respect — making them his companions in learning.

Always a professional, his classroom has never been a platform for his deeply felt, and strongly held political and social convictions. These he rightly reserved for the larger classroom of the University and public communities.

It is in these arenas where the force of his intelligence and personality have combined to confront the prejudices, the contentments, the lethargies of people who refuse to become involved with the issues of war, racism, poverty, and human injustice. By so doing he has become to some a figure of controversy, to others a target of their defensive anger, but to those who know him best a courageous symbol of the conflicts within the crisis of our times.

Where once he stood almost alone in raising his voice against the wrongness of the Vietnam war, he is now but one amongst the majority of those who share the moral foresight of his wisdom. His has been the battle against all the forms of tyranny that attempt to shackle the capacities of man to think and live free. Not without great cost to himself and his professional career has he entered the ranks of the committed. His example has inspired others to follow.

For all of this — for touching our inner possibilities — for introducing us to those mysterious moments when mind challenges mind and we have suddenly, magically sensed the power and richness of our own intellects and potential, we lovingly dedicate this yearbook.

"Once upon a time you dressed so fine,
You threw the bums a dime in your prime, Didn't you?"

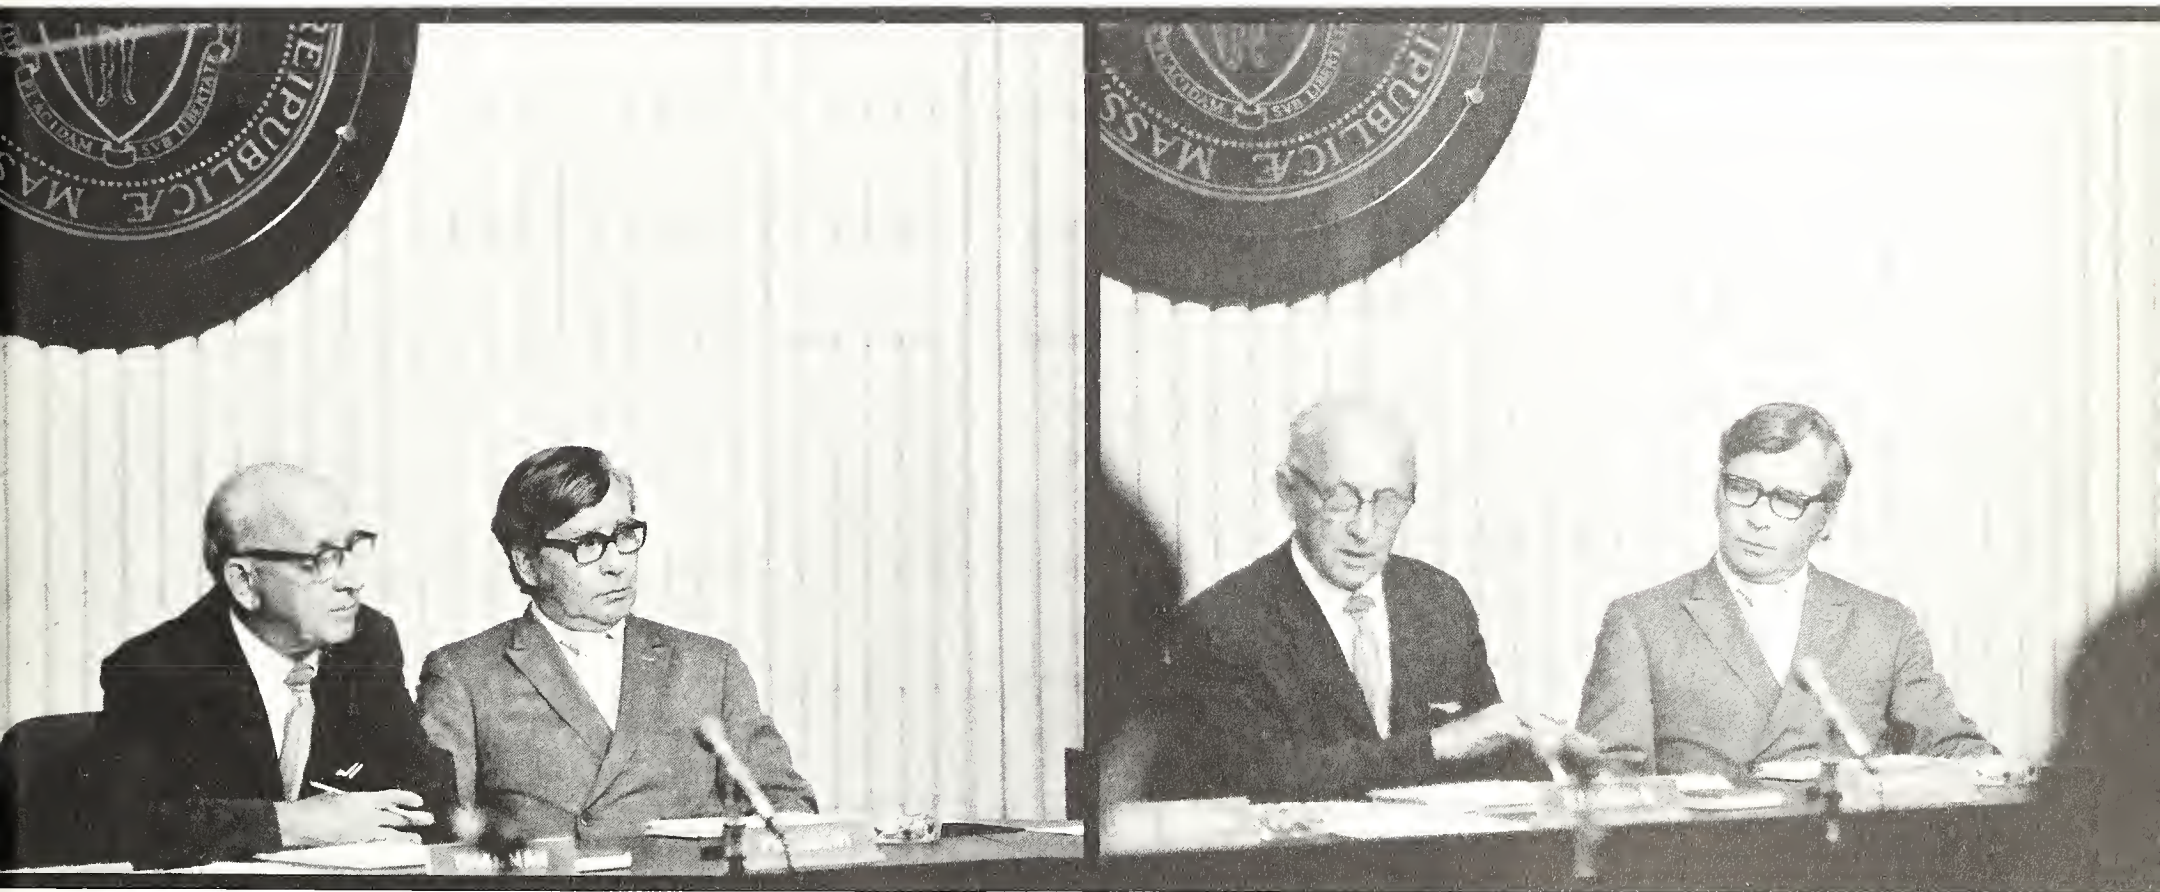

People'd call, say "beware doll you're bound to fall,"
You thought they were all kiddin' you.

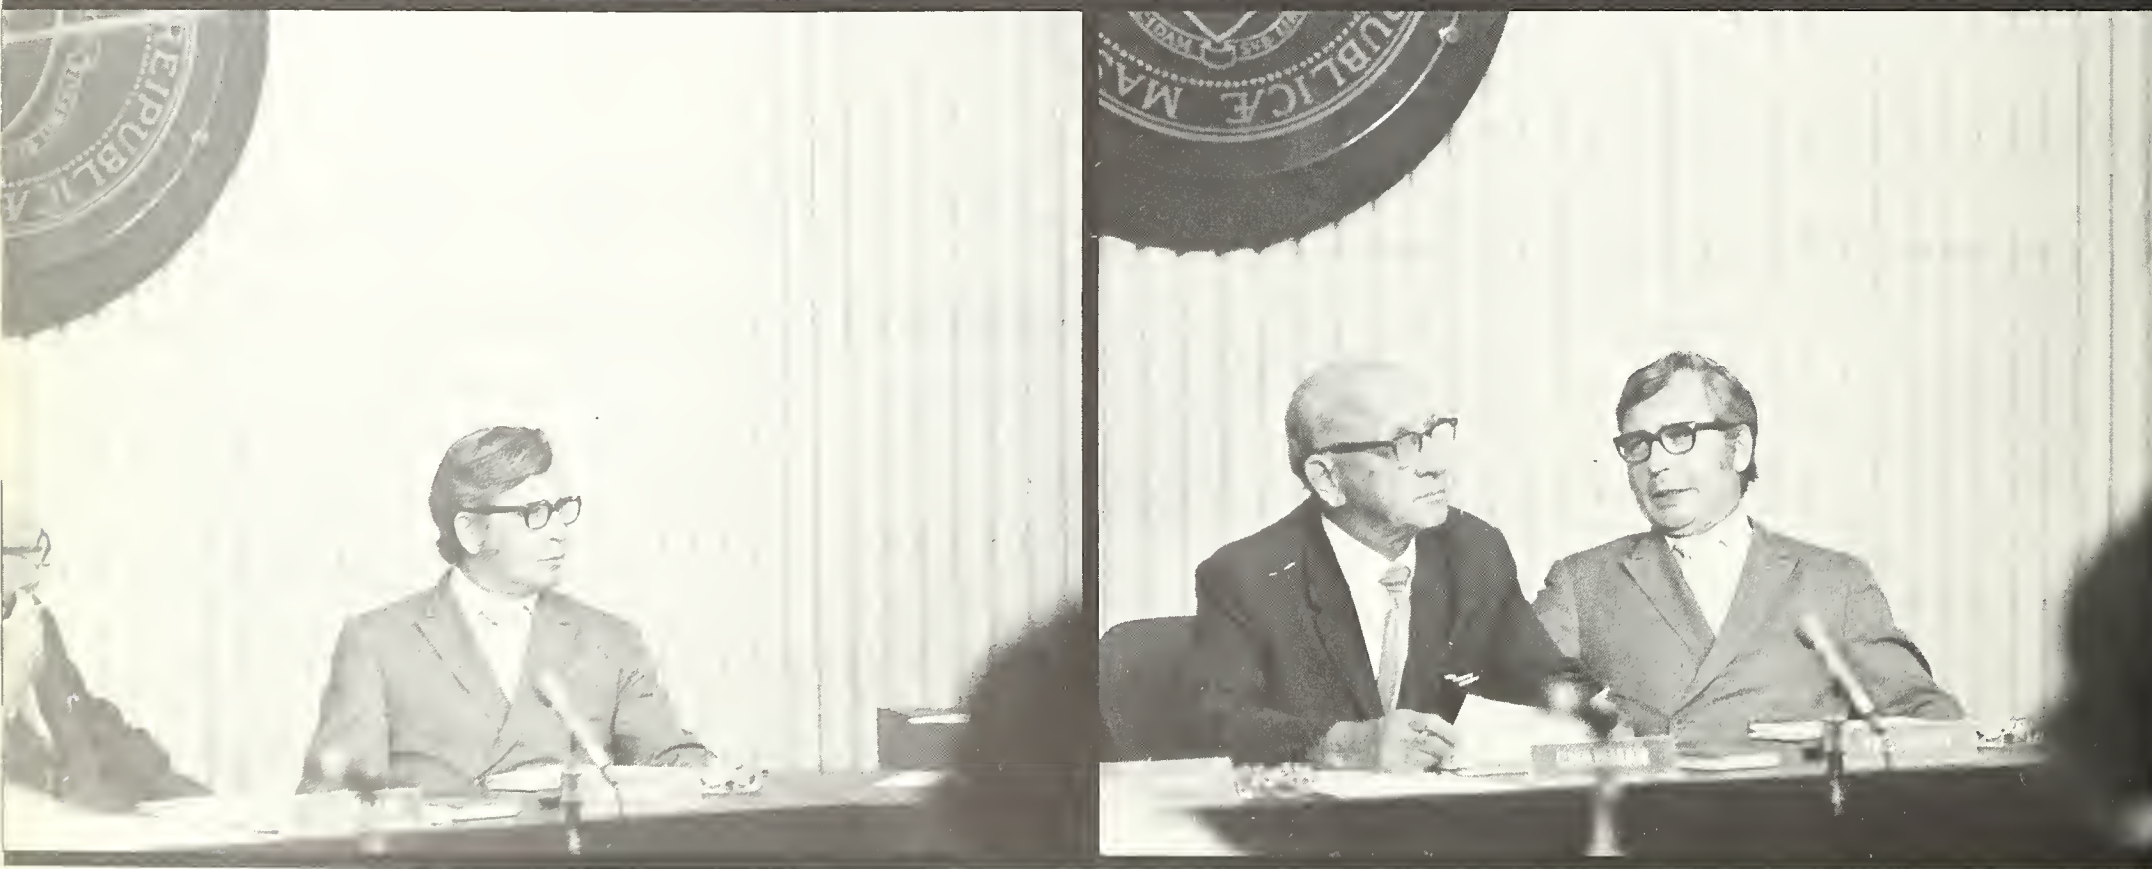

You used to laugh about Ev'rybody that was hangin' out,
Now you don't talk so loud.

Now you don't seem so proud
About having to be scrounging for your next meal.

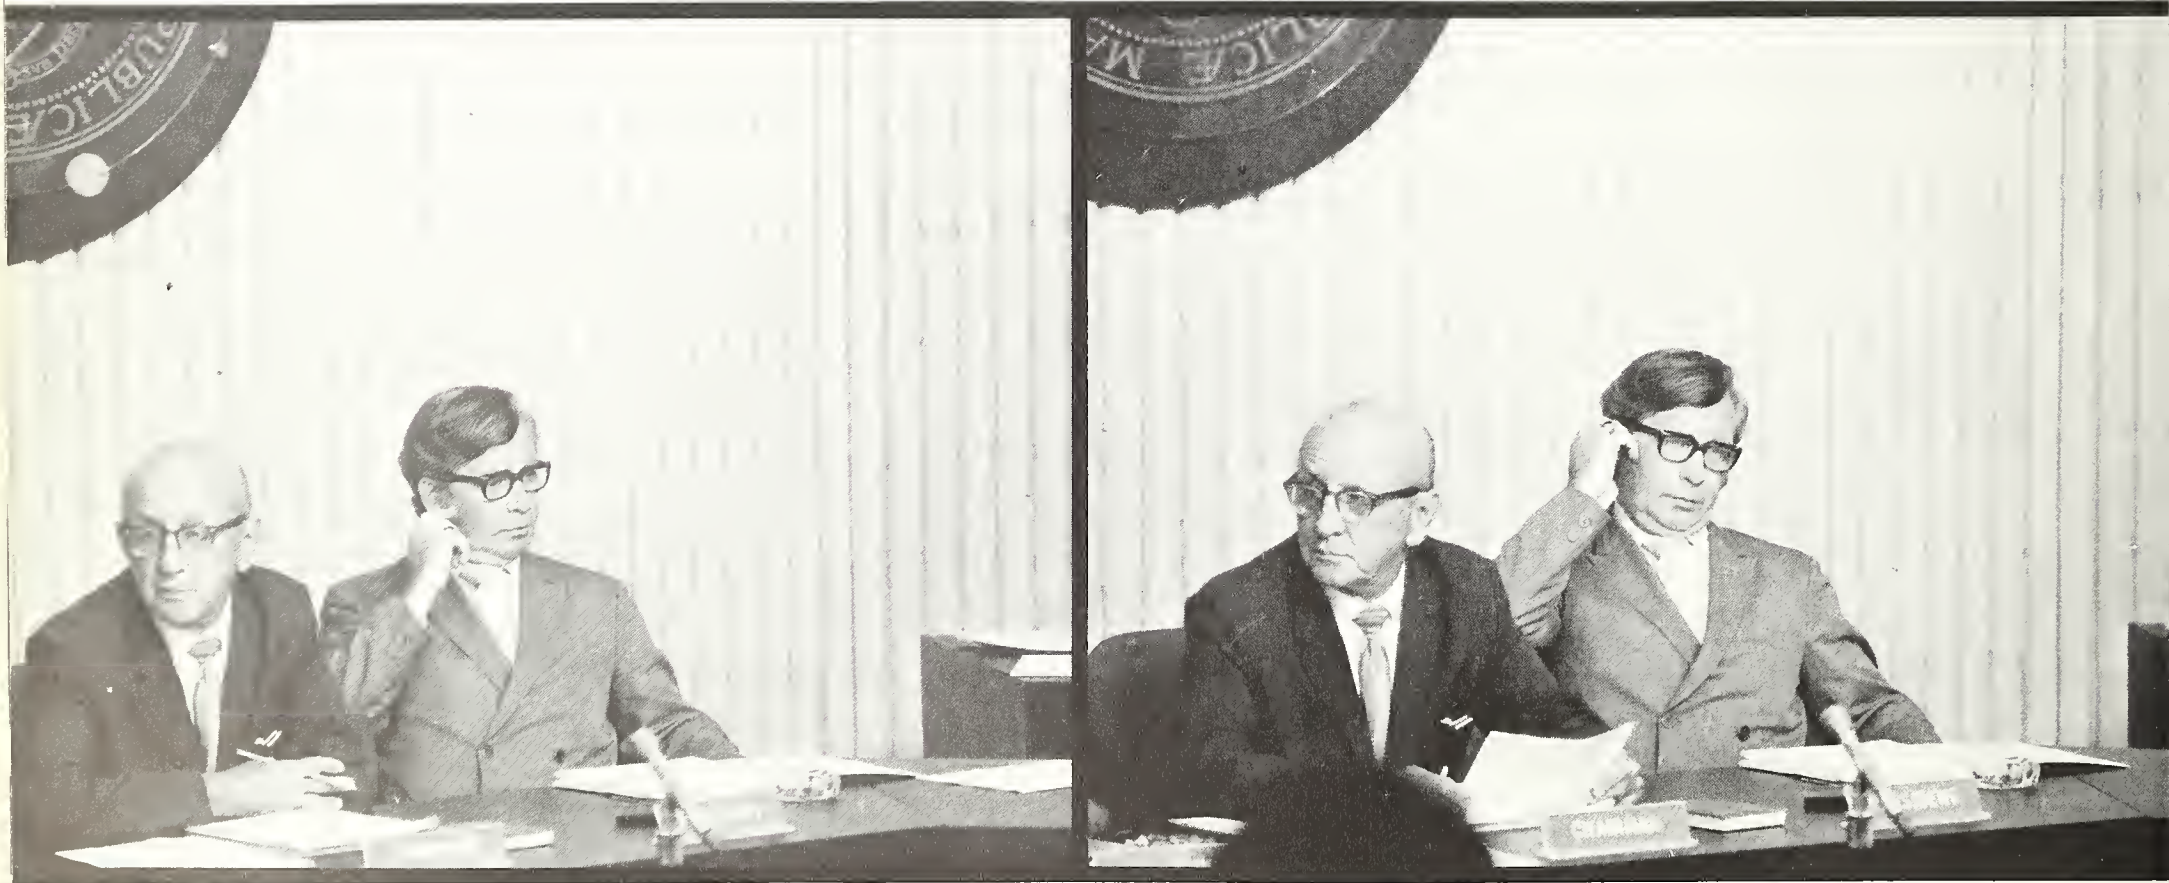

You've gone to the finest school all right Mr. Lonely,
But you know you only used to get
Juiced in it.

And nobody's ever taught you how to live on the street
And now you're gonna have to get
Used to it.

You said you'd never compromise
With the mystery tramp, but now you realize
He's not selling any alibis.

As you stare into the vacuum of his eyes
And ask him do you want to
Make a deal?

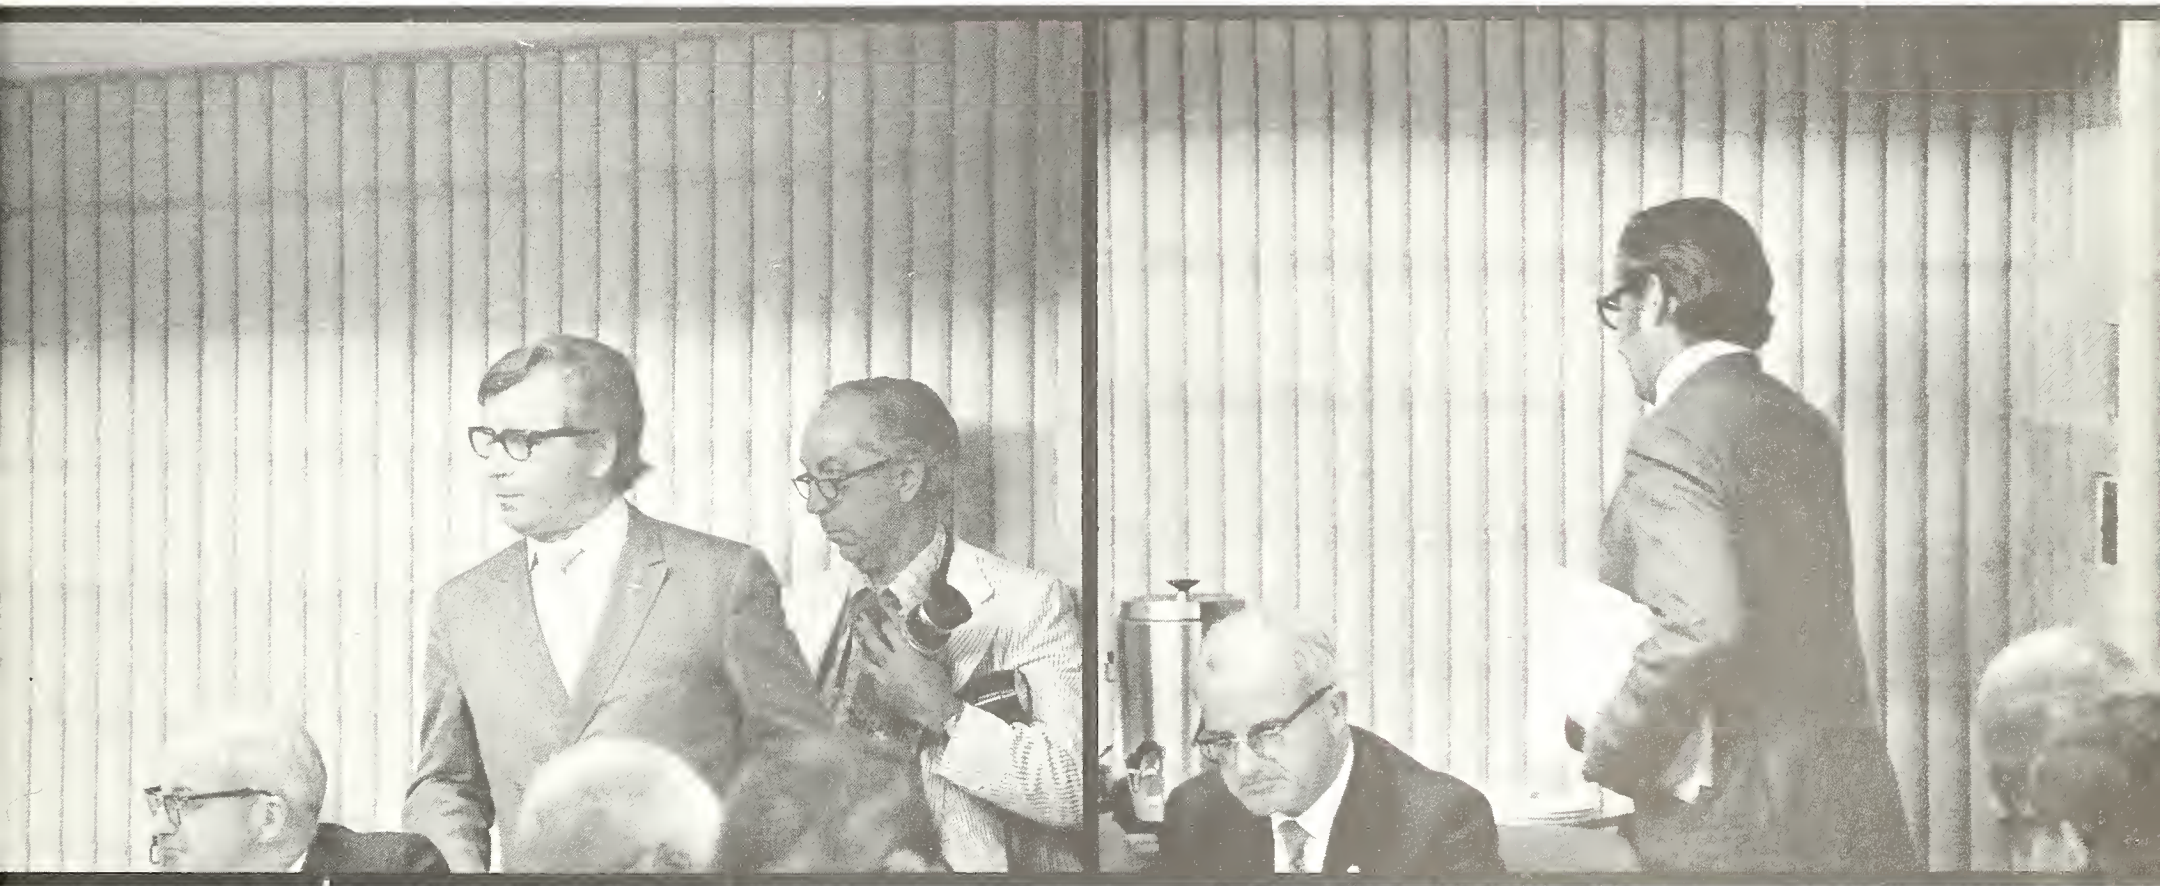

How does it feel,

How does it feel,

To be without a home, Like a complete unknown,

LIKE A ROLL-ING STONE?"
— *B. Dylan*

Office of the President

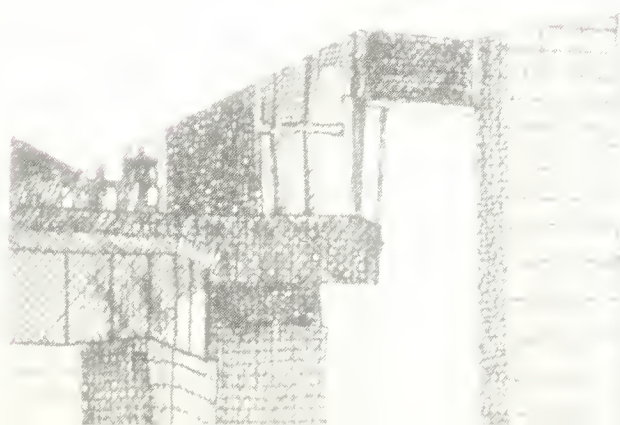

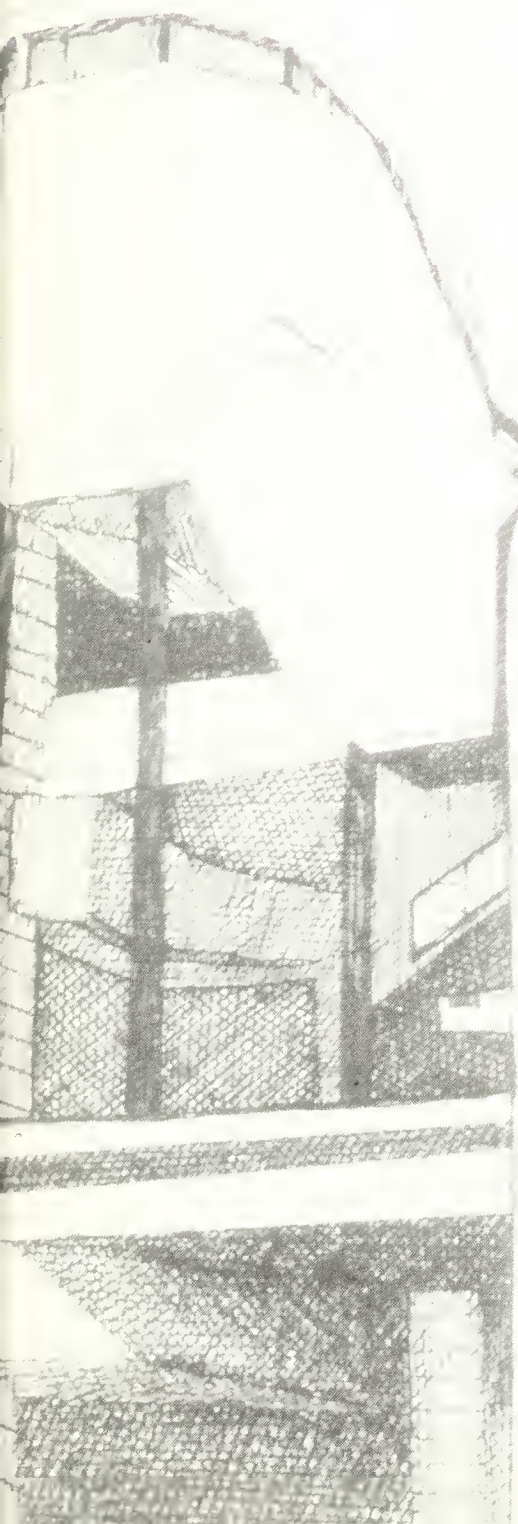

August 22, 1971

It is traditional at SMU that the President of the University, on request of the Yearbook editor, provide a brief message for the graduating class for publication in the Scrimshaw. As I have received such a request, I feel obligated to respond to it. However, it is not, and has never been, my nature to say things I don't believe or to simply try to address students in oral or written stylized empty rhetoric. With that as prologue, my message to you, members of the Class of 1971, follows.

It should be understood that it is not meant for you alone and, most certainly, it is not meant for all of you. Frankly, I am much worried about the future of this great nation and your future as well. My worry is based on certain patterns of behavior which have been manifested in many of the members of this Class. I worry about young people who preach love and act with hate; about young people who can so misunderstand freedom as to define it as license; who, in the name of sensitivity, are brutally insensitive toward their fellow human beings. It grieves me, in many instances, to see a sufficient number of you choose for your leadership weak and less than moral persons. It grieves me also to see a number of you hold up for honor and admiration individuals either incapable of meeting, or unwilling to meet, their just and clearly understood professional commitments to the academic community. Most worrisome, however, is the group too often correctly called the silent majority. Members of this group have very little of which they may be proud.....

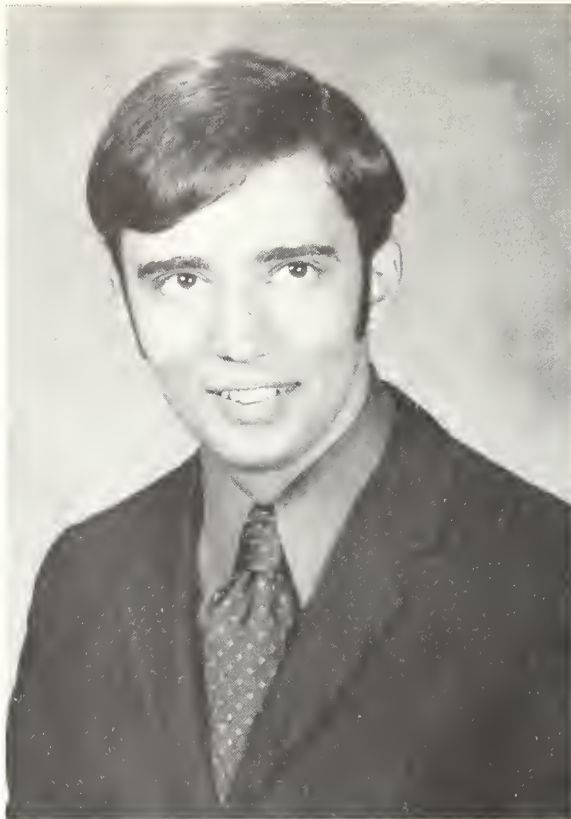

-2-

and they have no just claim to the liberties and advantages inherent in a free society for they have, by default, failed to earn or even protect them. My hope is that you will become involved in greater numbers in your society.....that you will search harder, with greater maturity, greater love and greater insight to find among your own classmates and within your own peer group, as well as from among those generations older than you who are, equally with you, members of this society, a better quality of leadership and a better understanding and appreciation of the true meaning of the basic tenants of the Republic of the United States of America. Get on with your search then, for you have yet a frighteningly long way to go. For all of it, I wish you success.

RAYMOND E. LADUE

LEONARD E. RAMOS

The following tribute was delivered in October of 1970 at the graveside rites of Leonard E. Ramos of Fall River by SMU Dean of Men, Donald C. Howard. Ramos, Class of 1971 Political Science major, died of gunshot wounds received during an armed robbery of a Fall River liquor store where he served as a part time clerk. Though Dean Howard's remarks on that occasion were directed to the memory of a specific individual, we the Editors feel that they speak an eloquent and universal truth about death.

"We come at this moment to the last and inevitable step in the ancient religious ritual of an ancient church — the burial of the dead. We, who this day stand here beside an open grave, coming as we do from disparate backgrounds, represent the human connections of life to one whose life is no longer with us. By this symbolic act of presence, we have come to share with those who bear the greatest grief and express to them and for ourselves the sorrow of all those who have loved — and lost.

"Leonard Ramos was a good man in a world desperately in need of the good. He was good in the beautiful sense of that term — wherein he sought to live out in his actions and deeds a genuine concern for the welfare and well being of others. He was a gentle man and kind, in a world marked by harshness and cruelty, and which pleads unceasingly for just a little kindness. He was a man who knew more truly than most that I have known the essence of fraternity. He was a member of one of the leading fraternities of our University. And to that group as an officer and brother he demonstrated an example of what it was to be a brother in the larger brotherhood of man. He found in that fraternal relationship the opportunity for broadening his capacity for love. As a result, he grew in his personhood a more secure man, more sure of his identity.

"He was a constructive man, whose quiet leadership influence was felt in other areas of the University's student life. He served this past year as an active creative member of a committee which drafted the University's new Student Judiciary. He served in that function because he believed that students were no less entitled than others to the protection of due process and fair treatment in matters of discipline. He was later rewarded by the confidence of his fellow students in being selected by them to sit as a justice on the University's Discipline Board, the highest judi-

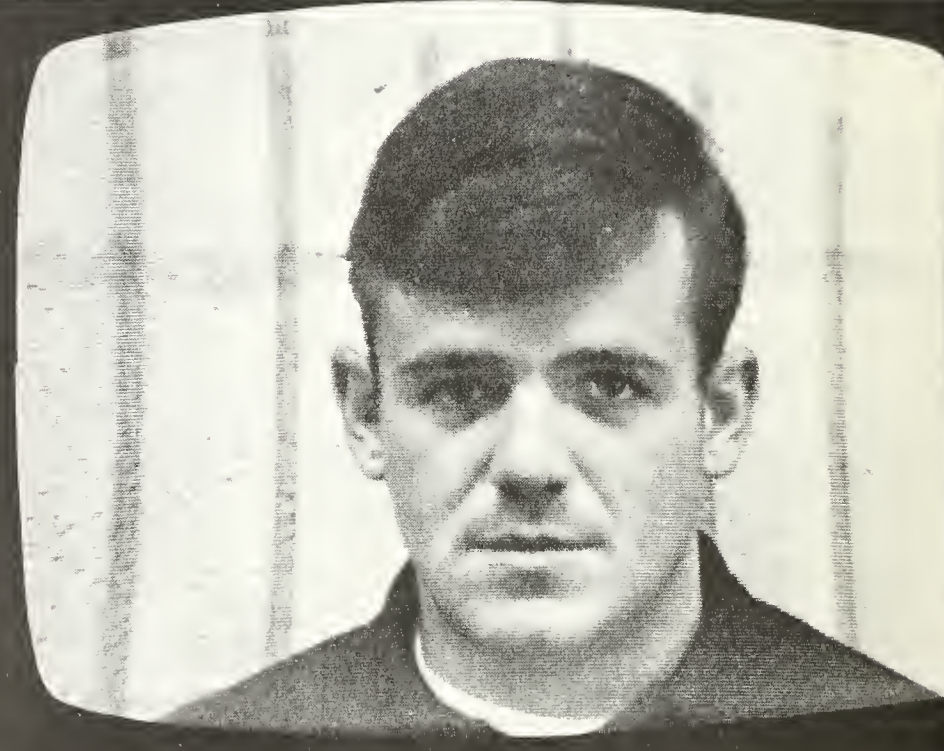

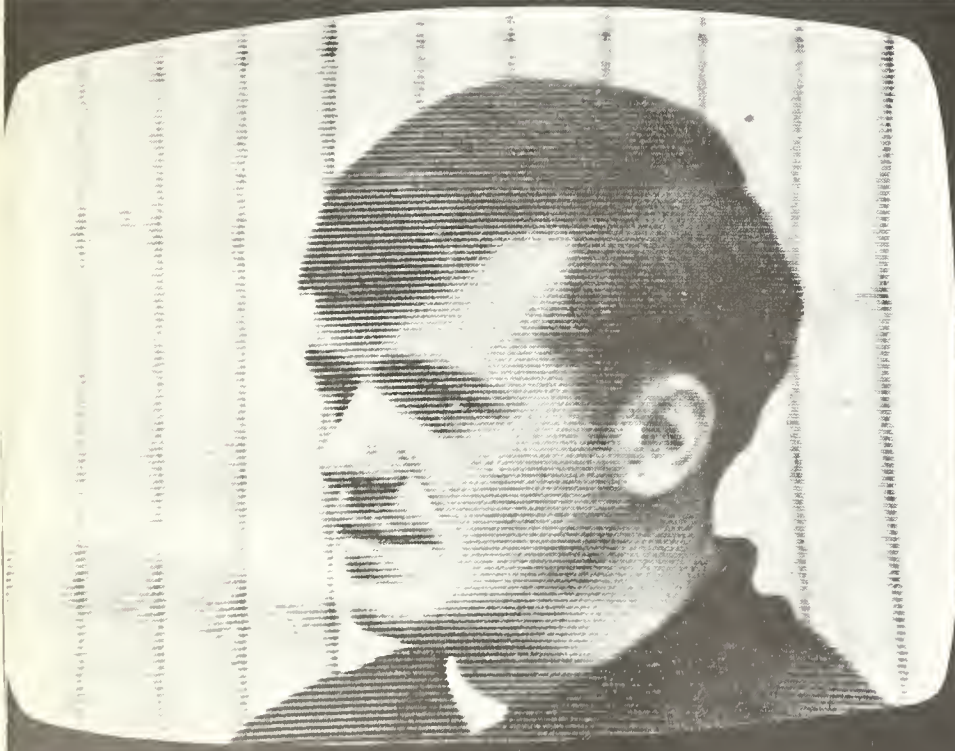

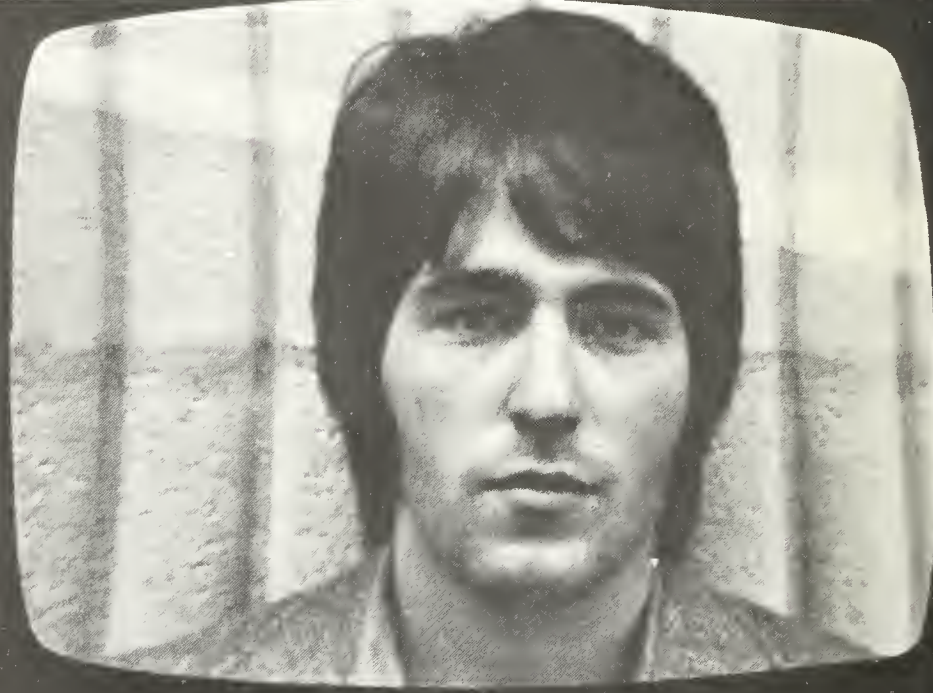

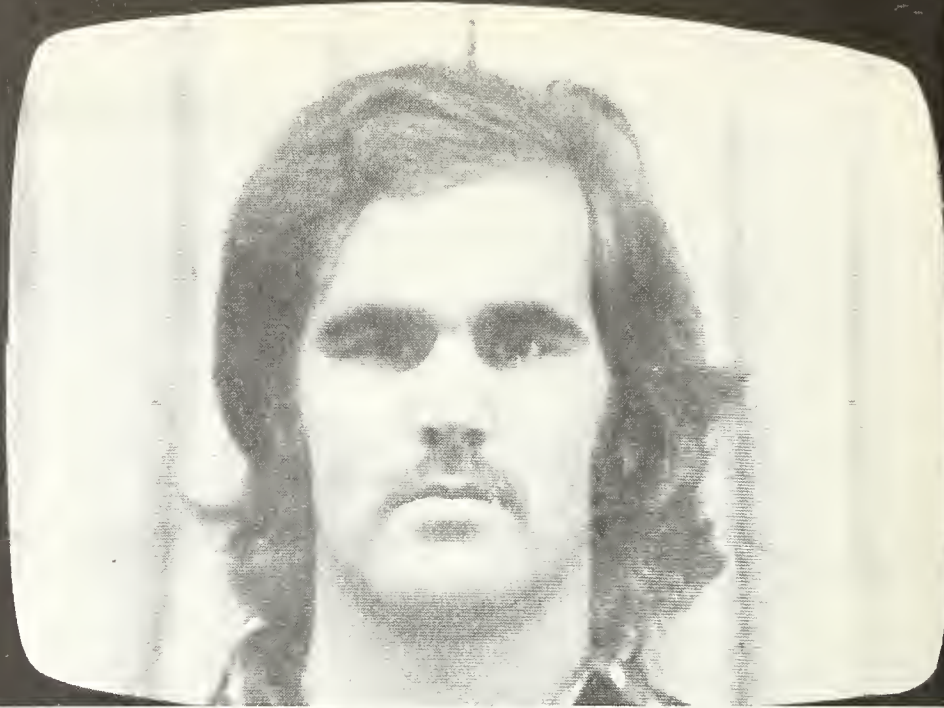

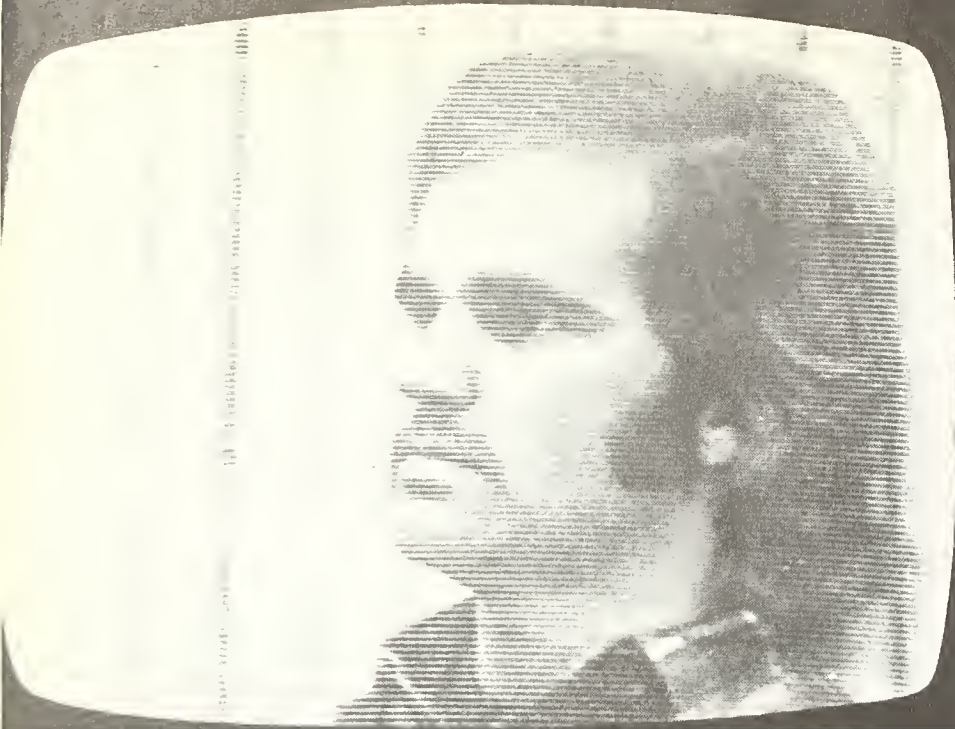

cial agency within the system the document created.

"He was a man, as one of his closest friends said to me the evening he died, who had a genuine regard for an opposite point of view. He had respect for the other person's opinion. In a university community divided by polarization, he was a uniter.

"The tragedy of Lenny's death is not that he died, for all of us must cross this bar sooner or later, but that he was cut down so brutally and so young. He was a victim of this age. The violence of his death was but a continuing reflection of the senseless violence which grips our society today. It was a measure of his splendid compassion that when confronted before he died by the criminal fiend who so mercilessly shot him, he could say to him, "I should hate you, but I don't because you are sick."

"But when all is said and done and this final act is completed, what more, if anything, can be said; from what concept of life can we take comfort? In these modern times, mourning has ceased to be modish. However, as someone else has said the fact of death forces us to pause a moment in our doings, suspending our prides and panaceas, pause in the frustration of our enemies and the planning of our wars; pause to savor the sweet miracle of life and the solemnity of death, to ask ourselves what the purpose of our existence is, after all — the existence that man did not create, that is only leased to him in trust, and that does not belong to him to destroy. For you, Mr. and Mrs. Ramos, is the comfort of memory — the memory of a son whom you brought into the world and had with you for 22 years of life. A son into whom you put the best of yourselves and who in turn prided you with a nobility and strength of character. For you, his sisters, for you, his family relations, for all of us, his friends, who are here in such numbers this morning, there is that awareness that our lives in some way are the richer and the better for Lenny's contact with us and his impact upon us. In that realization there is comfort.

"Yet, there is a comfort that supercedes any of these, the comfort which comes from faith in that paradoxical, unfathomable truth, which is the central issue of Christian doctrine, and by which Christianity is content to stand or fall — the death and resurrection of Jesus Christ. In order to redeem us from our sins and to make us righteous before His Father, He went into the jaws of the grave and of death. Someday, so must we. He returned from the grave and death to reign as a living saviour. So shall we. For He said — "I am the resurrection and the life, he that believeth in me, though he were dead, yet shall he live. And whosoever liveth and believeth in me shall never die." That is the greatest and most enduring comfort of all."
